

OSBORNE V. LOPES

Boston, MA (Open To Relocation) | (617)-792-6908 | lopes.o@northeastern.edu | [LinkedIn](#) | [GitHub](#)

SUMMARY

Business Intelligence and Data Analytics professional with 4+ years of experience building Power BI and Tableau dashboards, automating SQL/dbt-driven reporting pipelines, and delivering RAG-powered analytics tools using LangChain and Azure AI Search. Skilled at translating financial, inventory, and engagement data into KPIs that drive stakeholder decisions across finance and logistics domains.

EXPERIENCE

ServiceNow **Feb 2026 - Present**
Remote
Data Analyst

- Automated recurring ITSM and service operations reporting pipelines using MySQL and Excel Power Query, collaborating with service delivery and business stakeholders to define reporting requirements and streamline month-end and quarter-end reporting cycles, improving data refresh times and reducing manual effort by 40%
- Engaged with IT operations and service management stakeholders to analyze incident, service request, SLA, change-management, engagement, and customer satisfaction KPIs, translating operational trends into interactive KPI visualizations that improved visibility into service performance and supported month-end and quarter-end reviews
- Developed an AI-assisted service-data enrichment pipeline using Python, SQL, and LLMs to extract and normalize application, configuration, and service attributes from unstructured sources; applied rule-based validation and exception checks before loading data into downstream analytics, improving data-processing efficiency by 45%

Atlas SP **Jan 2025 - Aug 2025**
New York, NY
Data Analyst Co-op

- Partnered with finance and risk stakeholders in weekly AUM and portfolio performance reviews, analyzing trends across 15+ financial indices and portfolios to support lending and risk-management decisions, streamlining weekly review turnaround for the risk team
- Built automated Tableau dashboards for portfolio risk and performance analysis, transforming Snowflake data through ADF and Alteryx across 100+ stress-testing scenarios defined with quant and finance stakeholders, replacing manual spreadsheet reporting and cutting report turnaround time
- Developed a RAG-powered chatbot using Azure AI Search and LangChain via a FastAPI backend, enabling analysts to query financial data conversationally and reducing analyst requests by 30%

Zyphron Industries **Jul 2020 - Aug 2023**
Mumbai, India
Analytics Engineer

- Designed star-schema semantic models in Power BI with advanced DAX measures to track inventory, fulfillment, and supplier KPIs, developing executive dashboards with red/yellow/green KPI indicators to highlight performance against targets and provide actionable insights to logistics leadership across 5+ business teams
- Analyzed customer delivery and performance KPIs across 10+ enterprise clients using complex SQL window functions and incremental DBT models, tracking CLV/LTV, retention, engagement, conversion, fulfillment, and customer satisfaction to identify behavioral and operational trends, applying A/B testing to reporting formats that reduced repeat customer complaints by 15%
- Reduced inventory shortfalls by 20% by analyzing historical inventory and order data with SQL and Excel to identify peak-season demand patterns and anticipate potential stockouts
- Automated ETL pipelines using Python (Pandas, NumPy, Scikit-Learn) to preprocess and validate 100k+ daily shipment, supplier, and fulfillment records, cutting manual prep time by 50% and enabling faster, cleaner data for downstream reporting

SKILLS

Languages: Python, Java, R, SQL, HiveQL, Pro*C
Databases and Warehousing: Snowflake, Delta Lake, Teradata, MongoDB, DynamoDB, Redshift
Cloud Platforms: Azure (ADF, Blob Storage, Synapse, Fabric), AWS (S3, Glue, EMR, Lambda, Athena, Kinesis, IAM), GCP (BigQuery, DataFlow, GCS), Docker
Tools: Airflow, DBT, Apache Spark, Kafka, Databricks, Alteryx, Control-M, Git, Agile/Scrum
Analytical Toolkit: Tableau, PowerBI, Looker, Google Data Studio, QuickSight, Excel
AI and Automation: RAG, Agentic AI, LangChain, HuggingFace, FastAPI, PineCone, LLM, n8n, Prompt Engineering

EDUCATION

Northeastern University **Dec 2025**
USA
Master of Science, Information Systems

- Coursework: Big Data and Intelligent Analytics, Data Architecture and Business Intelligence, Data Science Methods and Tools

University of Mumbai **Jun 2021**
India
Bachelor of Technology, Information Technology

- Coursework: Data Mining and Business Intelligence, Database Management, Cloud Computing Services

PROJECTS

RAG Job Assistant | [GitHub](#) **May 2025**

- Built a production grade RAG pipeline indexing 5,000+ job postings into ChromaDB using HuggingFace sentence transformer embeddings (all-MiniLM-L6-v2), enabling semantic search over job descriptions

Customer Churn Insights | [GitHub](#) **Dec 2024**

- Built a customer churn prediction dashboard using XGBoost (AUC 0.824) with SHAP explainability, identifying key churn drivers and high risk customer segments on the IBM Telco dataset
